

**Effective Date:** August 8, 2026

**Last Revised:** August 8, 2026

**Domain:** velourcare.com

**Authority:** Finance & Quality Assurance Division

This Refund, Cancellation & Quality Guarantee Policy ("Policy") governs all financial transactions, order modifications, and replacement procedures for services and custom products provided by Velourcare Ortho ("Velourcare Ortho," "we," "us," or "our") to licensed practitioners and authorized clinical accounts ("Practitioner," "Client," "you").

### 1. Custom Prescription Device Principle

Velourcare Ortho manufactures patient-specific clear aligners, 3D printing models, and retention appliances engineered exclusively to fit individual intraoral geometry according to practitioner-approved **OnyxCeph<sup>3</sup>** 3D staging files. Consequently, all physical products and digital 3D setups represent custom-fabricated medical devices and are **strictly non-refundable, non-exchangeable, and non-returnable once physical production has commenced**.

### 2. Case Order Lifecycle & Cancellation Terms

#### Order Lifecycle Milestones

- **Stage 1 — Diagnostic Upload & OnyxCeph<sup>3</sup> Staging:** Case setup in progress. Cancellations permitted subject to administrative setup fee.
  - **Stage 2 — Practitioner Setup Approval:** Final OnyxCeph<sup>3</sup> 3D staging verified. Orders locked for fabrication.
  - **Stage 3 — Physical Production & Delivery:** 3D printing and thermoforming initiated. Strictly non-cancellable and non-refundable.
- **Cancellation Prior to 3D Setup Approval:** If a case is canceled via the Partner Portal before the practitioner approves the OnyxCeph<sup>3</sup> 3D movement setup, a full refund will be processed, minus a nominal administrative and 3D design fee.
  - **Cancellation Post 3D Setup Approval:** Once a practitioner approves the OnyxCeph<sup>3</sup> 3D treatment plan, the order is immediately locked and transmitted to physical 3D printing and thermoforming lines. Cancellations or refunds are not permitted under any circumstances after setup approval.
  - **On-Hold Cases:** Unapproved cases left pending in practitioner portal accounts for over 60 consecutive days will be automatically archived. Reactivation may incur a minor administrative re-processing fee.

### 3. Manufacturing Warranty & Quality Guarantee

Velourcare Ortho guarantees that all physical aligner trays conform strictly to the approved OnyxCeph<sup>3</sup> 3D digital setup models and are fabricated using high-grade biocompatible thermoforming polymers free from material defects.

- **Defect Reporting Protocol:** If an aligner arrives with a physical manufacturing defect (e.g., polymer delamination, sharp/ragged margins, incorrect tray sequencing, or physical warping), the practitioner must submit a defect report to [info@velourcare.com](mailto:info@velourcare.com) within **14 business days** of delivery.
- **Verification Requirements:** Reports must include the anonymized Case Reference ID, step number, and high-resolution clinical photographs or video illustrating the defect.
- **Replacement Remakes:** Upon laboratory verification of a manufacturing error, Velourcare Ortho will remake and dispatch the defective aligners free of charge within standard laboratory priority timelines.

## 4. Clinical Non-Tracking & Mid-Course Refinements

Discrepancies in clinical tooth movement, lack of compliance, attachment loss, or tracking deviations during clinical care do not qualify for financial refunds. Tracking deviations are managed through OnyxCeph<sup>3</sup> refinement workflows:

- **Refinement Workflow:** If tooth movement strays from the original 3D treatment trajectory, the practitioner may submit updated 3D intraoral scans and clinical photos to request a new OnyxCeph<sup>3</sup> refinement setup.
- **Package Coverage:** Refinement eligibility, complimentary setup allowances, and tray fabrication fees are determined by the specific aligner package tier selected during initial case submission.

## 5. Refund Disbursement & Simple Security Terms

For eligible pre-approval cancellations or approved administrative adjustments:

- Refunds will be credited to the original payment method or applied as an active account credit within **7 to 10 business days** following written confirmation from our Finance Division.
- All payment data transactions and account interactions are safeguarded using simple encryption standards (AES for data at rest and TLS for data in transit).
- Shipping costs incurred for returning defective products requested by our Quality Assurance Division for physical auditing will be fully reimbursed by Velourcare Ortho.
